SUMMARY

My passion for technology and desire to continue learning has motivated me to pursue a career in web development. With Coder Academy, I was able to plan, design and implement multiple applications from scratch to final products in different stacks (Ruby on Rails, JavaScript and the MERN stack). At my internship, I gained valuable commercial production experience using the latest Angular technology with TypeScript. In my free time, I love engaging in various tech meetups, coding workshops and mentoring programs.

EXPERIENCE

Volunteer JavaScript Mentor | Muses Code JS
