SUMMARY

My passion for technology and desire to continue learning motivated me to pursue a career in web development. With Coder Academy, I was able to plan, design and implement multiple applications from scratch to final products in different stacks (Ruby on Rails, JavaScript and the MERN stack). At my internship, I gained valuable commercial production experience using the latest Angular technology in TypeScript. In my free time, I actively engage in various tech meetups, coding workshops and mentoring programs.

PROJECTS

Pricing Portal

- **React, Node.js, MongoDB, Express, AWS S3, Heroku, Agile methodology, Git** collaboration.
- **Image annotation** tool with **role-based authentication**. I was responsible for the **image uploading** functionality in full-stack.

Aussie Beauty Market

- **Rails, RESTful API, PostgreSQL**, payment processing (Stripe) & **responsive web design**.
- **Two-sided e-commerce** app. I designed the **website layout** and **database structure**, implemented functionalities and deployment.

COVID-19 Data Visualisation

- Using the **latest React technologies (React hooks, context, error boundary)** to present COVID-19 data in tables, graphs & forms.

Portfolio Website

- **HTML5, CSS3, responsive web design**.
- Portfolio website to demonstrate **my web development skills, creativity & projects**.

EDUCATION

Diploma of Information Technology | Feb 2020

Coder Academy (Full-stack Bootcamp), Sydney
Distinction Average

Grad. Certificate in Migration Law | Nov 2017

The Australian National University, Canberra
High Distinction Average

Grad. Diploma in Professional Accounting | Apr 2016

Victoria University, Sydney
Distinction Average

EXPERIENCE

Web Developer Intern | Skychute

Sydney, Feb 2020 - Mar 2020

- Built **customer-facing products** to enhance people's everyday experience with real estate.
- Translated business requirements to **efficient frontend and backend code** in **TypeScript, Angular, GraphQL and Hasura**, and ensured the **technical feasibility of UI/UX design**.
- Participated in **Agile sprint planning**, engineer handover/review and weekly demo sessions.

Migration Executive | Chartered Accountants ANZ

Sydney, Aug 2016 - Aug 2019

- Conducted complex accounting migration assessments with **high attention to details**.
- Proven **time-management** skills in handling high volumes of applications, **prioritising tasks** and **working autonomously and cooperatively**.

VOLUNTEER

JavaScript Mentor | Muses Code JS

Sydney | Mar 2020 - Current
